

Richelle Daly grew up in Fort McMurray Alberta and became a Heavy Equipment Operator with Suncor prior to joining the RCMP. In 2002, she graduated from Depot and was posted back to Fort McMurray. From there Cst. Daly transferred to Stony Plain detachment where she found it to be the most challenging, yet was probably the most rewarding time in her career thus far. Having done the Crime Reduction Unit in Stony Plain and worked her fair share of homicide investigations with Major Crimes Unit, she was accepted to the Edmonton Integrated Intelligence Unit (EIIU) in Edmonton. In this unit Cst. Daly met great contacts with Edmonton City Police and maintain them still. Cst. Daly joined the MEAP program while there and has been fortunate enough to have been able to assist other members in times of need. This includes member involved shootings to medical traumas while outside their home Provinces.

From EIIU Cst. Daly transferred back to Stony Plain and joined the Drug Unit. During this period at Stony Plain, she was no longer a member of the MEAP Program and was designated by a Sgt. at Stony Plain to be the SRR Sub Representative for that detachment. A duty certainly not much sought after there, but Cst. Daly took this role on with as much enthusiasm as MEAP. Cst. Daly remained in this role even while transferred to the Edmonton Integrated Traffic Unit which is where she is currently posted.

Cst. Daly has found that throughout her career she has such a passion for the membership and the "Force" that she tends to include a lot of enthusiasm and drive into something she believes in. She has learned that through collaboration with people one can achieve amazing things. One of her strongest attributes would be the ability to Network (partnerships). She has always been driven back to the front lines, and seems to be drawn to assisting roles for the membership.
